Medical Student Bursary

The second UK Stroke Research Workshop, organised under the auspices of the NIHR CRN Stroke Speciality, will be held on 11th and 12th September 2018 at Clare College, Cambridge.

The workshop promises to be a very exciting day and a half with some excellent speakers. It will also provide a great opportunity for exchanging ideas between experienced stroke specialists and other young researchers. It will be held in the beautiful surrounding of Clare College, in the centre of Cambridge, with a conference dinner on 11 September in the Old Hall. There is accommodation available on site.

There will be updates on latest stroke research including sessions on Stroke Imaging, Acute Ischaemic Stroke & Reperfusion Injury, New Technologies in Stroke Recovery, Heart & Brain, and Inflammation & Stroke, as well as sessions on Research Mentorship and Career Development.

Two fully funded bursaries (registration fees, accommodation and dinner as well as £100 towards travel) are available for medical students. These are funded from the Jane White Stroke Research fund.

To apply submit either:
1) an one page abstract of a research project in stroke you have carried out – you should be prepared to present this orally or as a poster
2) an essay on the topic “How will stroke care have changed when I am a consultant?”. (Maximum 5,000 words excluding references).

Further details and a programme are available on this link http://www.neurology.cam.ac.uk/neurology-unit-research-groups/stroke-research-group/events/nihr-stroke-research-workshop-2018/

Submissions should be sent to strokepa@medschl.cam.ac.uk. Closing date is 30th June 2018.
